FISCAL ANALYSIS

ASSUMPTION

Oversight has included information obtained for various individual proposals combined in this legislation as summarized below.

Conveyance of Property Owned by the Department of Mental Health to the Nevada R-V School District

Officials from the **Department of Mental Health (DMH)** stated consideration for the conveyance is not known. Revenue would be returned to General Revenue as the proposal is written. Although the actual description must be confirmed, the DMH assumes the description will not interfere with program needs of the Department. Thus, the DMH anticipates no fiscal impact as a result of this proposal.

Officials from the **Office of Administration - Design and Construction** stated the land and building is valued at \$737,295 per the Land and Buildings System. **Oversight** assumes a value approximating this cost will be negotiated between the state and the Nevada R-V School District.

Officials from the **Office of Attorney General** did not respond to our request for fiscal impact. Oversight assumes this proposal will not fiscally affect their agency.

Conveyance of Property in St. Francois County to the State Highway and Transportation Commission

Officials of the **Department of Transportation (MoDOT)** assume the proposal would have no fiscal impact to the department. In response to identical legislation in the prior session, MoDOT officials assumed that the proposal would authorize the governor to convey to the state highway and transportation commission (MHTC) property that is currently part of a maintenance site in St. Francois County. Officials note that in 1972 the property was deeded to MHTC by the Department of Health and Welfare with reversionary rights. Under the Omnibus State Reorganization Act of 1974, the fee title to the property was vested in the governor on May 2, 1974. Under section 37.005.10, RSMo, the governor may not convey title to any such property unless the conveyance is first authorized by an act of the general assembly. The proposal would allow such a conveyance to occur. Therefore, MoDOT officials assume the proposal would have no fiscal impact.

ASSUMPTION (continued)

Oversight assumes that since the property is currently state property and would remain state property, there would be no fiscal impact to state funds.

Conveyance of Property From Mexico Veterans Home to Mexico Optimist Club

Officials from the **Office of Administration - Division of Design and Construction (D&C)** estimated the value of the property at \$11,487, based on the approximate value of \$3,500 per acre, as provided by the Audrain County Assessor's Office (3.282 acres x \$3,500).

Conveyance of Property by Southwest Missouri State University

Officials from the **Attorney's General's Office** assume costs could be absorbed with existing resources.

Officials from the **Greene County Assessor's Office** state the property is an abandoned alley which has no value by itself.

Officials from **Southwest Missouri State University** assume they would sell the property. The value of the property is approximately \$7,362.50 per tract. Therefore, the value of the two tracts would approximate \$14,725. Because this revenue would not go to state funds, **Oversight** has not shown a fiscal impact to the state.

Conveyance of Property by Missouri Western State College

Officials from the **Office of Administration, Department of Transportation, Missouri Western State College**, and the **Office of Governor** assume the proposed legislation would have no fiscal impact on their agencies.

In response to a similar proposal, officials from the **City of St. Joseph** and the **Office of the Adjutant General - Missouri National Guard** assumed the proposed legislation would have no fiscal impact on their agency.

Officials from the **Office of Attorney General** assume the costs of the proposed legislation could be absorbed with existing resources.

Total fiscal impact to state funds is an estimated increase in general revenue of \$748,782.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

DESCRIPTION

The proposal provides for the conveyance of certain properties as noted below:

This proposal conveys .91 acres of property and a storage building owned by the Department of Mental Health at the Nevada Habilitation Center to the Nevada R-V School District.

The proposal would authorize the governor to convey certain property in St. Francois County to the state highway and transportation commission.

This act authorizes the conveyance of approximately three acres from the Mexico Veterans Home to the Mexico Optimist Club.

The proposal would authorize the Board of Governors of Southwest Missouri State University to convey two tracts of property.

The proposed legislation authorizes the Governor and the Board of Regents of Missouri Western State College to transfer land located in Buchanan County to the City of St. Joseph and the State Highway and Transportation Commission, respectively. It would authorize the Governor to
